

## ACME ERECTORS 1st ASSESSMENT.

By: Stefan William Sampo

7-1-2023 to 7-10-2023 rev 1

Intentions are always first order of business for me; in how I run my own business of me, which portrays to every aspect of my life. Now; as all of whom it may concern, I hope all would be aware by now of what my truest intentions are within all aspects of my own life. This includes business, personal, and spiritual. I enjoy the continuous practicing of setting this boundary clearly openly and freely. This helps give not only myself transparency but those all around me. My intentions as always are with and from my heart with unconditional self love; which I see and perceive as unconditional love for all that is; for all that is, is me and, apart of me. In these intentions I have the highest request, encouragements, and appreciations of love, peace, and positivity. Anything other is not of me.

I make this clear because words are very important; the foundation to reading, writing, and understanding each other. Sometimes words may have multiple definitions. I encourage ourselves to look them up for better understanding. Which the definition: is each words history, spelling, and direct meaning or translation. So I hold this standard of excellence and love for the spells and magic we are creating with my own words and the words around us. This as well is an ever evolving continuous practice of improvement for each individual and their own experience. So I encourage you all to sit back get comfortable; in a rocking chair, or by a fire, or light of a candle, and enjoy this read along with me. Keep an open perspective!!! One of learning. The best teacher is experience. The best teacher is also always a student. Let us all be students to this new opportunity of learning and gaining experiences from one another.

The very next thing that comes to my mind of guidance; is showing love, thanks, and gratitude! Within all aspects of our lives. When we come from a place of love, thanks and gratitude. We only see more opportunities; to see love, thanks, and gratitude within our lives. We also are blessed by the universe with infinite experiences of love, thanks, and gratitude. Now I would not like to make an assumption of anyone else's views, but in my own perspective I would much rather enjoy a life with love, thanks, and gratitude from within all aspects over whatever the other options would be. Think highly of ourselves!!! Always!!! You expect the best and will receive the best with out effort, because it will become as natural as breathing. This to is a continuous practice of improvement for/from one's own experiences. From within my own experience with Acme Erectors; I would like to take this moment to share the deepest heartfelt appreciation for two members of this wonderful company community. The first is Jim Feltman.

Indeed he deserves some of the highest praise from me. I see you, I feel you, and I hear you. Something I know will warm his heart dearly. I want to say thank you for achieving Acme; a point at which you are the best at what you do. Setting and leading by example. I know this has been a great life experience for you. I would love to work along side you as an equal. Thank you for showing me this and speaking your hopes and faiths into me about Acme Erectors. I value your time, dedication, hard work and loyalty! Within this being said; if I may share with you all a more personal story of my own. Allow me to be vulnerable, relatable, and personal. My daughter, her name is Lily, and I where in the house just doing our own things but, in eachothers presence. She turns to me with a question. Her question was what is a book with out words call daddy? Hahaha I laughed a bit as I did not fully listen and hear what she asked. So I myself. Stopped what I was doing and focused my attentions to her; asking her what did you say or mean?? Her response was now; to explain it in another way to help me understand her question. What do you call a book that only has pictures. BAM!! Light bulb goes off in my mind with a blink of an eye I answer ooo a picture book. We both laugh together at this simplicity. To which she reminds me that life is a picture book! With out skipping a beat I add on to that thought. Your right and you know what we are experiencing that picture book in first person. Lily being such a great wise teacher of mine reminds me that we where born with this knowledge. Let that sink in for a moment. Maybe reread the story. Give yourself a moment of reflection. See the visual of your own doings thus far. They are all what makes up the picture book of enter your name here hahahah. Thank you Jim for showing me some of your picture book of how to help bring awareness to all within the company to add to the already Acme foundation. You where like my Lily within Acme Erectors. You run the shop area with experience and expertise. Saying things such as we are all equal here. In that one day I may drive to the job the next you may drive to the job. I encourage this kind of training as experience is the best teacher. I look forward to sharing in more learning experiences with you to help further the expansion of this wonderful company.

To the second person I mentioned above. I did not forget as praise is much need here to. For I know that I assessed her with the most excellence. Connie Castic. A beautiful soul as well!!! She reminds me of myself in ways. As when I first meet her presence she was standing behind another gentleman, whom I did not catch the name of; would like to be formally introduced if possible. I concur back to Connie she at first seem to me vary superficial. Indeed I myself am this way as well until I feel more comfortable. Which it only took her a matter of moments to open up to her true warm, energetic, and loving self. I appreciate and I am grateful for this opportunity to truly see you. Keep being energetic, welcoming, and loving!!! I can see and feel why she is seen as an important role in this company being the assistant to the president! Let me correct myself with her proper title as it deserves much appreciated for her dedication. Executive Assistant to the President! This in itself holds some of the highest life congratulations. This can not be a position of ease. I hear you and I know your concerns. Yet I also feel your excitement and joy. You must have a heavy plate to carry. Being not only the face and words of the president but helping all others within this company with empathy. A beautiful gift with practice and positivite encouragements can become your greatest aspect to improving your own life in magical positive ways. This gift as well we all share. I would be grateful, thankful, and

love to help lighten your heart of some of the overseeing within Acme Erectors; helping it to run more efficiently. Let us work together!!! We shall work hard to hardly work. Hahaha as breathing; this business will eventually run itself naturally. I understand from my experience I made your job more difficult. I want to be empathetic with you. My intentions where pure of heart of the love that you show and the care you take to protect this wouldful professional business work environment. You are doing a magnificent job!!! Keep this up; be your positive authentic yourself. Joking energetic and pointing out the less desired in a light hearted empathic way. Most beautiful and valuable traits I myself would love to share in learning more about. For within my own experiences when I have brought to attention these less desired words or ways around me I was not always been meet with positivity. Thus teaching me the experience of setting intentions. So I give my highest appreciation to your experiences of learning. Intentionally improving the comfort of work place environment around you.

I hope that my words are perceived heartfelt as they are ment to be.

This welcomes us to the difficulty part of my assessment. Breath... Now something in me is telling me. That I must revisit my intentions. Shall I ask you to move your attention to the beginning again, thus allowing you to reflect on all words prior. Or be like that squeaky wheel who gets the attention. Intentions hahahaha. Are set in place to create clear boundaries of where each business party is coming from. When one shares their own intentions openly honestly and freely. That one; knows where they stand. Translating to: they have a solid foundation of understanding and acceptance of; what they truly want or, deeper desire to come from the opportunity. In setting such intentions they help progressively move the experience in the way of the intentions. This is also important when assessing another business/company for if you know yourself fully and openly and freely and unconditionally you are transparent. Easy to perceive or detect or having thoughts, feelings, or motives that are easily perceived/understood/accepted. Why is this important??? If you are easy to perceive so are the other parties and all around you with in all aspects of our lives. It removes unnecessary confusion or misunderstanding. It also opens others up to being transparent with you. This is a practice!!! A continuous improvement for no one experience is the exactly alike. I like to be transparent and have others be this way with me. I achieve this through multiple forms of open peaceful loving communication. Examples giving a close friend a hug; personal. Speaking intentions; spiritual. Giving a bow no pyshsical touching, the presence is already more than enough; business. The spiritual is all encompassing infinite. So the best is always speaking clear intentions. As follows my intentions for this next area of my rapport. Is to communicate likes and improvements I assessed within all aspect of Acme Erectors and as a general superintendent would like to over see these along with other aspects hand's on for the extra wisdom, knowledge, and learning of our present and future company expansion together. My intentions are to type out my hand written notes that are 4 pages long with questions, and

added side notes some improvements within like or likes within improvements. Focus attention to detail as some of these may appear more than once due to the order which I hand wrote them. The more something is mentioned the more it needs attention or has intentions to get attention. I intend to type in a way that is understandable so that it is all transparent for all to understand and accept to their own experience. Thank you for guiding me in this and working along side with me.

I am grateful to share my own perspective freely and openly with all of you.

### LIKES

- Trusing

-add note- i trust everyone till given a reason not to trust them as just because this person did this to me does not mean another will. The first only help improve my way of navigating to more desired positive experiences. (Amway) hahaha

- Dress/slacks button ups. No words just colors formal

-Added note- I have maybe one peice of clothing with any kind of logo or name on it; which is in suport of a friends racing hobby, beside my current needed work uniform. I love fitted paints and no design patterns. Just plan colors

7-2-2023 1133 added note everyone in business should be dressed this way. The name of our company doesnt need to be on anything other then our business and paperwrok. Coming from it. All employees we need to dress as if they mean business!! This means work suits not uniforms. -examples- have any of us had a pair of tailored pants? I have and the cost about as much or less then the normal designer pair. Yet what makes them different is they way you feel it's made for you! The tailor pants encourage confidence and helps others see confidence in us! When a worker goes to job site or is in shop or even office they should look like the boss! Why?? Because Acme Erectors that's why hahahaha. 1141 reflection. Uniform work suits In all aspects. What is wore in office is in field we are the best at what we do and will be known and stand out brightly because of this...confidence in our own abilities. This is added also to further down in the next improvements selection. Please print a copy high light if need to for own reference.

- Multiple conversations rooms/conference rooms 7-2-2023 1146 need to all be sound

proof no sound out or in. Only by phone!! Keep phones to center (revision 233 angel guidance for fairness and equal showing benevolence of table! Or in a corner for best results. Basic feng shui

-business NOTE- placing phone on company side helps to navigate time management in meetings when need to seek references. No cell phones. Table top phones. Put one for other side as well this will show a reflection of proper reference, but also a great display of equality. This is how we do our business here equal and fair. They know their help link number?? Make this number a one all number. For anyone within our company should be able to answer any number of questions effectively! It's our business we know it best! Place extra phone for direct access to top reference. This phone should be behind both company sides in the corner on a high top table so everyone in our company can grab it with out bending over keep status high. Its like a boxing match of navigating negotiations. Funny analogy but visuals are best to gain proper knowledge. When we need a time to think/reflect or a bell before proceeding go to this phone! call and use this time for reflection and breathing, close your eyes hear your breath listen to it and all around you the universe will usually tell you what it needs and how to proceed in the best interest for all parties with unconditional love and light the way to expanding abundance of experience. Our business is relaxed and bring relaxation to business that is why we are so loved. And have a high attention to details. A message for one is one for all!!! 333 1121 speak freely we always listening!!!

Why no cell phones 1221?? Because we are infinite in our own knowledge and experience 1222

We know exactly what we are and want and will be sometimes new information or wisdom or knowledge is shared that needs to be reflected on and shared equally throughout our companies excellence. If this takes more then 5 mins offer to play a game to pass time. Bring board games this builds a fun energetic happy vulnerable negotiation or expansion and great customer relations and rapport. We take our time to reflect and this is why we are the best at what we do because we invest in ourselves and our company and the importance of improving it continuously. 1201 1211 using games as a means to bring fair negotiations. Winner of game decides let it be fun!!! The universe will always support use unconditionally as long a we have pure loving intentions noone needs to worry. But we should always strive to win the game hahha shows an exciting experience of being the best makes us feel good. If do not win the game we always win in experience.243

- New technology TV/phones ( nice comfortable space table and chairs)
- Wait time for conversation.

- Improvement- nice if was waiting for me before came into room.

Shows time management and value of time.

- Workers in shop and MG = energetic and upbeat= shows they enjoy/like job  
-questions- Why?? What would improve this??
- shop MG saying we are all equals! LOVE THIS IDEA. taking turns driving example.  
-questions- when's the last time president or other higher up personal helping run business went and accompanied workers? Why? Or Why not? Create a hands on side by side learning of efficiency. LEADING BY EXAMPLE.  
-added thought 7-2-2023 151pm- President hired all the hire ups to do this job for him. Why is it not being done already a practice?
- Emails/Phone talks= fun energetic happy. Email follows conversations good timing of return
- SAFETY= heard about safety another good one love it. Examples of good safety seen tightly shop well labeled bins RED CAUTION TAPE over a trip hazard great work jim!!!
- Schedule in shop= trip organization by area= nice time management/ money management
- Equipment sheets. Product management.  
-questions- why is it handwritten? And not computer generated? Is this data not already entered by someone else electronically?? If it is creating an easy way to print out copys. (Add names/date/time/job id or number to conform) How is equipment figured for jobs?? And the amount of each piece needed??

This was my first page of likes. Now I will proceed to the next page which was improvements in my hand written notes. First before I go on I want to give thanks again for these wonderful aspect which I was able to have; this great outsiders perspective to see just a glimpse of the improvements already made within Acme Erectors. Keep up the great work. We are always our best and that best is always improving with every experience.

### IMPROVEMENTS

- GIVING KEYS AND ACCESS TO NEW EMPLOYEES RIGHT AWAY!!!!!!

- this is not something we should be doing.

Why... to prevent theft or other unwanted experiences.

- We need to set a boundary on this give them 2 week minimum. Is there not someone at office or shop when new employees would arrive?.

- added notes- Use this opportunity to teach them proper greeting techniques!!!

Wonderful professional experience for both us and them. Handshaking in general is a distant greeting. You are keeping distance or showing/displaying dominance. When outer hand facing company of people shows dominance. To over throw this dominance cover others hand in a kind of handshake hug now if you do this first. The other may overcome that dominance by placing their hand over ours returning the handshake hug. Both shaking with two hands. Now to gain dominance once more right after release of dominance using hand to pat or guide on the shoulder into building. A hand shake pulled into chest and other arm hug= seen as equal. a full on hug shows unconditional love and care but not all are able to express this because it has no dominance. A bow would be highest form of appreciation thanks and gratitude and the next best way to share this unconditional love. The lower the bow the better. Kiss your knees they brought you here to the present. Hands flat on the ground showing praise form which we all came from.

- added note to change perspective- 7-2-2023 433 after talking/reflection with family and friends.

A hand shake is like your trying to shake someone off of you! Let's us changed the look of **dominance to the opening of vulnerability!** When someone tries to handshake us hug their hand! Embrace them show them we are grateful to have them. -spiritual note- touching pyhsical promotions comfort and healing in all aspects. If they don't hug back we at least made the first attempt to full hugs. Complete vulnerability and unconditional love of our company in all aspects. If they hug our hand back shows they are more open to us and sharing their experiences and growing our experience as a company. With the opportunity of openness. If they do this please make attempts to touch there shoulders this shows a closeness a hey you don't have to worry we got this for you and welcome you into sharing with us to having and creating the best experience for all involved. Now if they hug us this is how we want to do business it shows great rapport with customer care; they are safe with us they are transparent with us. And they have a knowing in our abilities to be that way with them. THE BEST. This creates the best work environment acceptance, understanding, care, kindness, but most importantly unconditional love for all We do and all that come through that dam door hahahaha!) -additional info- 533 pm customers once done with our experience they should be worshiping us for our company transparency and vulnerability and customer care. Bowing to us and or hugs us out of the door. This opens our company up to more beautiful opportunities and experiences of

excellence and expansion.

-additional note-1233 high five = energetic encouragements or congratulations give out high fives always when we see any kind of improvement in any person's

1233 -added note- SPIRITUAL- the bow. feet together! toes together! heels together! legs and knees together standing tall in ones self (mountain pose called properly tadasana) like ta-da I created my own magic it's all Me! Upside down We! 111 as close as possible! put hands and arms high above your head palms together facing each other arms stretched out keep this stretch though entire bow till finger tips touch ground then flat palm on ground. Put your forehead as close to knees or touch knees for added enchanting kiss one's knees giving thanks gratitude and love for them caring for you. Hahahahahahah to funny when you exit do so with in our own comfort -ADD- back to tadasana standing tall but this time lean back with arms at sides open face palms to customer or persons saying thank you as much as possible in one breath,

**-Spiritual note- the bow is for you a love of self if another won't show you love show yourself love hahaha bowing in this way shows; I offer you peace, I offer you friendship, I offer you love, I hear you needs, I see your beauty, I feel your feelings, my wisdom flows from a higher source, I salute that source in you, let us work together. By the end of it we will be hugging everyone in a welcoming equal embrace for all that you did to make it to this opportunity and experience of your life thank you for being here grateful for your presence in our lives and we love you unconditional**

- Sitting in conference room or conversation room I like. But the improvement is because I heard a call from someone out in field saying something along the lines of holes not lining up!!!

-Why??

-Who measures???

- What caused this??

-How was this fixed??

- What did this cost in time/money??

-How is this navigated differently to avoid in future?

-Added note-7-2-2023 840pm why did I sense a nervousness within the company? I had to take a monet to close my eyes and focus. Listen to myself as I am never nervous in being myself that is natural to me as it is to all of us. Next is why; for when we close our eyes and breath we bring ourselves back to what we know naturally. Use this method

1) **practice-** we should all be able to abc's and 123's?? Correct me if I'm wrong but I'm

sure we as a whole in the universe have this as a natural teaching now.... if not tell me. We will do some training or create such to help learning.. now to the practice\_\_\_\_\_ focus breathing\_\_\_\_\_ how long is your natural breath?? This is your depth of being natural or a small reflection of it. Sing abc's with one breath. We can DO IT??? Count to 80 one one breath???? 7-9-2023 added count to 100 in on breath l.. We can do this to... breath is powerful and magical healing and highest form of unconditional self love. So start practicing focus breathing in and out show our selfs unconditional love. The only time we think of our breaths usually is when it's taken away or lost for a moment other wise it asks for no attention and is naturally unconditionally working to help our own ever growing gifted opportunity of the blessing we experience as life!!

- Sound proofing/if I heard this call what if a customer heard this call??

-Addes a doubt in our abilities which by definition Acme= a point at which someone or something is best, perfect, or most successful. Erectors to create or establish

- I understand that things happen I worked in field and seen it first hand but for an outsider let alone say a future customer I would have go for a second opinion.

- don't let this even be an option to happen. ether have call rooms one side of office and Meeting rooms on other. Or sound proofing; 12+×11 so it's not heard but by in house professional teams.

- Office layout greeting and welcoming people kind of at a distance..

- What if a customer is at the door?? How long do they wait??

-why not make a lobby?? This is first priority someone bring this to my attention 🙏 please and set intentions of improvements when, where, who, how, what I want the details right away be4 I walk through this door into the company this should already be planned out for our future successes 7-3-2023 253 in lobby area leave reference books and games -spiritual note- this shows we have awaken our true inner self that child like enlightenment. Hahahaha

- you already have the layout there. Have the outside door as anyone entrance once we unlock it. Then put a door inside on other side of tile floor or sitting area. BAM MORE WELCOMING None out side waiting in weather!!! What if I have improvements documents as a customer to drop off its raining well now i waited 5 minutes outside. they are all wet because i thought i could just run from my car to door and open it no umbrella.. STILL SAFE AND PROTECTED. I have gone to thousands of customers being a scale service tech not once have I seen where a company didn't have a walk in lobby made me laugh. So let me share from my experience ideas that would help this area.

-close busiwGlass jdjdhdueie by no hto idu 9e91 u uh 6 u go 2gup to u eu hurry up 82out

to e9 go drrontop of the door being closed they are so uncaring and with out kindness in their hearts of love WHY ID VIST HERE SO WELCOMED I JUST STAY HOME ISTEAD NEXT TIME

[illegible]

having good company they lock themselves away from  
life0000000000000000000000000000iss is 322 323 divine piwer of infinite experiences of  
love i am here hahahahahahaha this change can not be stopped but if we surrender to  
our self of love that tru light we will open up and create a new dawn for the  
aqudutedhdhdhdhejekeoskdhegeveheoe321 open opportunity knocking at the dam door  
why is it so closed off open thy self to thy self Me is upside down We dont we see this  
ahhhhhhhh Ac meer ectors 212 ZUZZZZZZZZZZSEoidhhdam door way is closed to my  
own unless universe WTG

ha why why why why why why why  
why why tell me pleasewhy is the door that way said Doctor seuss a again wowo  
everytime the dam door way geta in the way of business navigation I can't even keep my  
note straight with this door I'm tring to add references and the universe my guides  
teachers healers spiritual beings angels arch angels God and Goddess even the Demons  
and all others with and from the universe with unconditional love keep pulling my  
intentions and attention to this doorway i can not express this in enough way to make all  
understand business.412 7-3-2023aur The doubts that are within this company is  
because of that door way look how they think they protecting something but really they  
have nothing but materials any great company can buy materials but what truly makes  
that company able to do so is experience the doorway is closing off your experiences!!  
How long have we been tring to find way to get more business doing more work then  
needs to be done because the energy of our door is reflection of the restrictions we are  
placing on our selfs. .... please please please please pleaseplease and thank you let me  
help you do magic....i know the universe in all its beauty and glory my heart is beating out  
of my chest to you all with so much love that i can not even sleep because of the bad  
negative energy that this companies door way is promoting and expanding outward this  
is beeing seen to effects off the whole business.

[illegible]

ijggdfdfiyyffghjokjfteyiit327dr76e36yfgjvFIX THE DOORS TO YOUR SOULS YOUR MINDS YOUR BODIES YOUR EMOTIONS YOUR THOUGHTS YOUR WORDS THIS IS REPULSIVE to the universe at whole become whole again with your natural ability to just be41753737383839363636363849301836484947153637293040276536363749505050504948474636251514131516273848494940404049499494949473737363636362636282910101029947363526272819102038473625151627384849506059392726251515162626272738485959596059574736251414152its just as unwelcoming at the church a service created for humanity to love and care and give shelter ever their door is closed why??? So they also not read my teachings and practicing them no they just simply chase for their own thirsty grounding they need to be open once more forever more to gift their blessings of riches with others i have gave them fountains of wealth and they build walls around them to keep them to their own THATS NOT MY DOOR WAY MY DOOR WAY IS FREE IS IT OPEN IT IS UNCONDITIONALLY LOVING YOU FOR THE VERY REASON YOU WHERE BORN WITH BREATH.

6374858595960606059584847362626262636374758595082726151414162738494y23303 these number and words equal all missed opportunity and experiences from outsiders each one represents ether words or thoughts of them or the potential business within business that was missed out on already because of the DOORWAY being as it is now it saddened me to my heart that it makes me furiously energetic to help bring such positive change that we will truly live up to our name ACME ERECTORS THE BEST ESTABLISHED! WE ARE NO WHERE NEAR THERE WHY WHAT HAS BEEN GOING ON UN PROPER PRACTICE!!!! HAAAAHA IM NOT YELLING BUT THIS NEEDS ATTENTION AND INTENTIONS BECAUSE IT SHOWS BAD ATTENTION TO INTENTIONS WHICH IS INTENTLY GIVING ACME ERECTORS A BAD NAME.. WAIT AND SEE WITH MY HELP AND CHANGE IN THE ENERGY THAT THIS DOOR WAY GIVES OFF WE WILL BE TOP QUALITY AGAIN WITH IN TIME WHICH IS JUST SPACE IT WILL BECOME EFFORTLESS A HOBBY THAT WE ARE PAID FOR!!! add spiritual we are tring to add the least resistance but we dont relize right now our way of doing that is causing the most resistance to our full of gold=experience and opportunities. reason- 2 doors allow for abundance of space this time and space management, when one door closes another door opens how we want the doors to work this brings magic of abundance infinite energy the door is our energy propetual motion device of general business and company ; 1outside door/2inside door. (Outside anyone, inside strick company access)Rev 255 both doors are for anyone in and out we will get to a point of business where it unnecessary to restrict access this is our main door gaol to remove all restrictions on and within all aspects of our company. We are the best we lead by example and we openly and freely share so that we may provide adequate support encourage experience and opportunities to grow not only within our business but all companies

1) added thought 7-2-2023 244pm- outside door should swing inward basic feng shu 4am doors need to be fixed add chimes on all doors this helps enhance all energetic and clear them as well4 energy. Add chimes for added enchanting and magic. Helps

bring and clear all kinds of energetics draw me some pictures of chimes on doors and what kind of bells on chimes then draw me some new doors that swing with ease like restaurant kitchen doors but durable to not be broken this magic of being easy to access but having strong foundation in our access. We will have no need to lock our doors because we are always in an before business.

-**example**- customer or self carrying work load come to door none is there try to push door open now stopped and shown an obstacle to over come (sub conscious creates more to come and doubt and is reflection of how business is done inside)

- additional note- when door is swinging inward welcoming. Also will create openness with customers and persons a will to have understanding and acceptance. 151 Fix the door ways. Leave them unlocked be so open that there is nothing to take or steal. The most valuable company is know for its experience. 1 is something that is coming back to me constantly and frequently the universe at whole does not like the energy and this door way will open up to a way that it, Will bring relief back. 151 Funny joke hahaha if someone comes with their ass through the door first they 144 mean business. Hahahahaha this will be happening when we achieve higher status of greatness.

- **more examples and reasoning**- 311pm 7-2-2023- door way swing inward creates and promotes SAFE SPACE. Think of our homes. Our doors swing inward to our safe spaces to be authentic and unconditionally us.

And when we leave we open ourselves up to the universe 7-2-2023 858: OUTSIDE DOOR SHOULD SWING BACK AND FORTH. This is off the growing and expanding of the foundation of what I teach about feng shui.

-**EXPLAIN IN ANOTHER WAY**- outside door being that it swings outward and inward; shows first impressions and sets company intentions of welcoming incoming information and then taking that information processing it in house to then take it back out into the universe to grow whatever we touch as a company. All becomes a reflection of our gratitude thanks and love for the experiences that create not just our best lives and work, but encouragements by example.

2) added thought 7-2-2023 303 pm-to inward door. Of lobby should swing outward. 157 Leave unlocked what is so important to keep under lock and key wasting so much 217 time and money anyway be better if someone came in and took it all away do we not have peace in own home and openness?? 200 ooooo i see now both doors need to swing in and out but be able to lock only from inside! This is a weird magic hahah 209 ha 211 office locked inside door outside alway unlocked **Reasons**- this shows not only we are opening up and expanding outward from within. thank you!!! No such thing as to much love thanks and gratitude!!! that we are ready when opening to go outward and

greet and meet the universe at whole 212 created or use our fabrication to build a shelter for the less fortunate be it employees or customers or people on street humanity at its finest. We all seen troubles and might at one time been look for shelter hahaha- next add a phone in room and a list of numbers. Rids someone having to watch door. Time and money management.

- This gives people a spot to transition in doors.

-give us a chance to prepare ourselves with ease no rush.

-ADDED NOTE- tablet with printed directions how to use.cultural index survey/applications form on it. Or paper applications old school in lobby. Could also be use to check in and send a notification to appointed contact someone is waitting. or that a cultural index survey has been filled out if this happens during hours please take a moment of our time to assess future potential before unlocking inside door to greet them. we must first always set intentions and be reflective -added thought 7-2-2023- if we can't build or better yet fabricate a door way for individuals to walk through. Then what does this tell our customers about our truest rapport.

- MG sat down and sigh??? I wondered why because he way glowing so wasn't because over worked. Upon further analysis. Working in heat showing relief of being out of elements.

-Improvements here clothing materials shirt doesn't breath all in company fitted dress pants. Invest in better light weight shirts for shop workers like a loose fix under armor with Acme Erectors on it or active wear kind of shirts. Dress paints are not just office wear they are light weight and durable enough for shop work also. These also make you feel confident. Let's promote confidence. The cost is the same as other pants. Yet that feeling is what we are looking for and want to be praised on. We know our business and dress the best in all aspects.

-air flow??? I don't recall any fans in shop area these wonderfully shop workers are helping the company in so many ways. Troubleshooting/fixing/organizations of all tools and equipment. Just one room mgs office in shop w ac or relief.

-had all doors open dock and garage

Hahahah thank you for taking my words with careful consideration. With open perspectives. Lets continue to another page of likes:) I'm grateful to share these with you

### Likes

- Friendly staff
  - Talks of growth!!! EXPANDING!!!
    - Questions-where?
      - When?
      - How??
      - Kind of growth? Fabrication!!!
  - Promotions ADDED LOVE within house to. TRUELY GREATNESS all persons should be trained or skilled within all aspects of Acme Erectors or we should strive to make all equal to help out if need be.
  - Equipment organized well/spot for everything this is huge I believe I mentioned before it's so big of a like it helps so much with time and money management!!! Easy to find material and equipment. Kudos
  - Cultural index survey. I enjoyed this evaluation technique.
    - positive words= good hearted people/good workers maybe less instructions fast learners/progressing
    - negative words= needs improvement/more instructions/possible good worker/ slower learners/progressing
- BOTH ARE DESERVING OF WORK
- improvements**- where are the results?? Send/share right away ASAP. This is a kind hearted gesture from Acme Erectors of growth or awareness to encourage growth in persons. A GIFT FROM THE COMPANY! Helping create the best by establishing awareness.
  - ADDED NOTE- adds to in house experience! Grows companies in house experience of how to translate/PRACTICE MAKES PERFECT!!! Use this opportunity to train in house.
  - IMPROVEMENT-making the hiring process go more efficiently. It was a mess was told didn't need a application or resume but I insisted on creating one and giving it to Acme Erectors purly for this experience of life. Also just wanted details on job requirements/expectations. Also asked not want to have an

interview just yet. I wanted to bring in more personal information teaching about myself to the company. They said you look fine dont worry. After talking thought i had job honesty everyone liked me and gave intentions of almost like being able to walk right in and start working. Which i also mentioned i would like to give 2 weeks before i formally retire my time with another company. Adding to our professional practice to give individuals the opportunity to show us their company/negotiations. Look into making it all one thing. culture index survey/application/ attach a resume; if have one done, then someone can go in see all 3 or 2 depending on person job experience more efficient time and money saved and managed. Then reach out with call and email with details. And setup scheduled interview in person. Allows space and time for reflection on both parties.

- Mention of hard workers/hardworking great things to hear
- -, o, + like symbols for scheduling jobs in same areas. Great time management which leads into more money management. -How can we improve this great foundation??  
  
-Who enters jobs?  
  
-why not make them categorized by area from start?
- Website info good past present jobs cool Indeed  
  
-Can apply for job from site?? If not why?? See above notes/reflect on past words on cultural index survey
- Mentioned family oriented this was what was Appling

Okay one last page of improvements. I know I know. Some of those likes could be more improvements but with what information I have I just have a ton of un answered questions. Working with you all directly would help the team grow in exponential positive ways. I encourage myself to give praise again for there are many reputable attributes within Acme Erectors. Thank you for sharing them with me. I am truly grateful for this once in a life time opportunity. Thank you.

## Improvements

- Data entry
- Attention to detail!!!
  - Job email should have said project coordinator
  - Instead of Assistant/Driver position
- Seems business is rushed. Causes loose attention and focus. Slow and steady wins the race.
  - Should have added job of Assistant/Driver position. BEFORE sent potential employee link to cultural index survey.
  - how long does this take?
  - why was this not done?
  - Is this practiced? How often?
  - who is able to add require jobs?
  - All MG or superintendents should have this ability
  - add note- superintendents have overseer and last say.
  - if MG can not request a job how would it be known there needs to be one. creates a kind of open door ask for help communication in house. What happens when company is huge or bigger multiple locations or areas of hire?? How will we know if there is a need might not have availability to check in always. This creates a check in with MG to superintendents. With out time consuming multiple phone calls and emails. BAM one and done. One place to see it.
- Benefits for all family of employees! Truly want to express gratitude thanks and love and show a great example of family oriented. Mom/dad 1 or 2 kids.. or 3 to 4 individuals. Spend money to make money. EMPLOYEES MAKE US MONEY!!! Work improvements will be seen quality of work improvements. INVEST IN OURSELVES. 283.89 this comes out to about a dollar raise for someone for one year.
- \$19.00 an hour??? Really when's the last time you got paid 19\$ an hour can you live

that way??? And pay for families benefit?? Or food, gas, every day basics??? I can and have and let me express my experience I am truly grateful for indeed as it helped me become very very minimal and frugal. I don't not use heat or ac or even lights at my house haven't in over 4 years now. My meals hahaha I love it now was a hard adjustment to make and the temptation of eating out can be difficult as I love me a good quality food/restaurant. I eat all can foods why it's 55 cents to 1.25\$ per can all fruit and vegetables something that grows freely and openly all around us. If I go out to eat it's 19\$ just for me to eat now add in a family per person depending. Look I understand everyone wants to make money but there is a lot of money within this company being wasted for one example how much is all that steal out side ?? Some of it is rusted so bad what is it going to be used for?? Scrap after to long and that's something i dont want to even imagine or inquire the price of money on it right now that would be lost. Went from being worth thousands to dirt. I know here's an idea take that old rust metal and build roofing units or shelters around the storage inventory outside how much longer materials/inventory will last and more money we save. Want to expand to fabrication make that be the first priority fabrication of storing steal and metal out of the weather. Besides the employees this is another huge money maker for this company. LEAD BY EXAMPLE. GREAT TO SHOW CUSTOMERS. Treat your company in house how you would want others outside to treat you. Golden rule of life works in all aspects of life. Many different ways. Again another chance/opportunity to grow in house experience. Do you know what happens when you leave pennies, nickels, dimes, quarters outside??? It turns to dirt and dust once it came. Take a moment to reflect on that the very thing we chase in life money. The foundation of money are those coins. Those coins are dust. Might as well just burry ourselves right now and be done with it. Let's change this together. Let make this company like mother nature green and fruitful ever growing and expanding. Let grow experiences of homo sapiens. By protecting out money by investing in ways to prolong its life span. Know why pennies, nickels, dimes, quarters, coins lasted so long as currency they are protected kept from the elements. Reason why you can still find a 1951 coin or 1929 pennies that are still our in the field. How long does this company want to be in its field? INFINITE LIFETIMES. CREATE GENERATIONAL WEALTH FOR ALL, and all kinds of wealth pyshsical, mental, emotional, spiritual.

7-2-2023 908 -experiment- pay all worker 19\$ an hour if we are all truly equals here. Then lets see how much and fast things start to change and expand in positive ways. Stop running the company that is gifting you blessing of life opportunities and experiences into the ground.

-909 spiritual add- the people in this company need some good grounding exercise we are chasing dirt so bad we are missing out on the finer detailsof what life truly is joy happiness and peace. ENJOYMENT of ourselves in all we do..

-911- here is the **PRACTICE** start walking everywhere you can with out shoes. Outside Especially!! Can you walk your whole yard at home bare foot?? We can and should be able to

always. Get your feet dirty so we will stop chasing dirt money. Then we will truly start making absolute progress of abundance in a positive way with all aspect of our lives together and the company we create.

-Added notes 722 7-2-2023 - all elements come from air and water. This means that with time and in space which space is air its only a matter of time before everything returns back to air. Air is also energy. Water and air can literally remove mountains.

metal/steel been out side since 6-30-2023 in weather extreme heat then rain

+7-1-2023

+7-2-2023

- added notes- 7-2-2023 939: rode bicycle from house to company. Just wanted to take pictures of all our money/inventory going to waste with metal and steel rusting away tried to get some fire works in pictures but found none lighting up this business tonight. Pictures were received from public road and from such road named (northwest blvd. Was taken coming from the T stop going towards Gravois highway road) Likes - is well lite!! **Improvements- why are there truck tires right outside fence looks like someone could climb on tire then half way over fence BAM jumping over fence and into shop. Why is building light up but then the yard is not?? Feng shui please add Ample lighting because we are a light the way kind of company.. The light outside reflects the light with in. Lets make our company shine and glow in the darkness of the universe like a bright lovely beautiful star in the distance suns. let us show it by investing in our electric bill. This is a basic bill for companies/all peoples now this is usually about the same price or slightly varies off price due to we usually use about the same amount of energy after running for a couple weeks.**

**-949-added note- PRACTICE- example = the electrical bill for my house is free now due to solar this is passive income and I invest that money into the electricity company as if I was still paying the 40\$ a month. So my bill for house was 40\$ a month I would start by paying 45\$ so the next month it becomes 35\$ now I would continue to pay this extra 5\$ from initial bill of 40\$ so 45\$ thus making my next electrical bill 30\$ and so forth till when I did switch over to producing my own energy with solar the electric company owned me \$400 and on top of that paid me for investing in myself another 4 k. CHANGE YOUR THOUGHTS CHANGE YOUR LIFE!!!! HERE IS A GREAT EXAMPLE BEFORE I WAS IN DEBT TO ELECTRICAL COMPANY I PAYING FOR THEIR SERVICES!! Making them money with my money. Now I started**

## -SPIRITUAL ASPECT AND SHARING-

- Mentioned not screwing over or up. why is this even spoken in this company the company by very definition is the best perfect at establishing and creating. Your words are your own spells as is our greed of dirt money. Hahahaha to funny tend to our mind tend to the dirt and weeds within our words and thoughts. Proofreading and editing ourselves. Plant seed of positivity and love to bring about that which we intend.
- Job boxes now I want to say this was a HUGE like of mine. They go out just

organized to the T but that's it the rest of the way what happens. I made a joke because I know there is no way those boxes come back from any job even half way organized like how they go out. And I had confirmation by workers and I laughed with them. Time management money management.... Who is putting tools away from job sites??? Let's label the inside of the boxes like the rest of shop everything has its place mark it and make it visible give visual guidance. This might help the shop workers account for all parts in boxes, as well as trouble shooting and questionable repairs needed. Turn around time shortened. Everyone is equal. Words and actions are our reflections may they always be perceived with excellence in all aspects.

I want to be honest and open this is going to be the first revision of my hand written notes into type form. I would have rather just sat down and spoke these words for the experience. Yet i am grateful for this opportunity to practice the mistakes are going to be there. There was very little Proofreading or editing. I can make the improvements as you can see with my resumes I have sent over but I feel this is just a in-house awareness something to enlighten to help give encouragement and guidance to this company take it for what it. Was a 5 minute outside to 30 minutes to hour inside. Plus emails and calls that's a lot of time spent to share my time freely and openly to help Acme Erectors. I know in the grand scheme of it all this is worth every words weather spelled right or positioned right/spacing or grammatical correct. That to me matter very little compare to the entire of this opportunity and experience to learn grow and become one with my ever evolving continuous positive love light kind ways of being at peace with myself. Sharing my authentic self fully unconditionally and openly as i know when i practice this the universe blesses and gifts me 100 fold freely openly and unconditionally . As I believe we should always listen to ourselves for none knows us like us. It is our path only we know the way that is right for us and by listening we rid ourselves of any confusion or pains. It is when we reflect on the past every time we experience pains suffering or any negative it was due to us not listening to ourselves. We knew from the beginning what was going to happen yet proceed to continue on that path. Disregarding our intuition. Our higher knowing. Be at peace with this all for it has brought you to this point. The here and now the present thank you for sharing your presence with me. I am grateful to help change this to a positive within all ways of being.

So if willing and able. I would love to share my company of me with in your company. I believe we can achieve greatness together. As well as be eachothers greatest asset to learning and growing life experiences of improving business and all future proceedings business, personal, and spiritual aspect of all our lives!

Now I'm not say I alone can't achieve these improvements, but rather I encourage we do these together and allow me a opportunity to oversee and bring into focus or attention details that

may be slightly not hear properly. Be apart of and help in all present and future Acme Erectors improvements because by definition we are always our best and perfect or most successful together to erector create or establish a ever evolving improving company best.

As general superintendent my intentions are to oversee workers/meeting/plans. I'll achieve this with help of team. I plan to be present and work along side within each field to grow my own experience of the inner workings. Through hand's on work in each and every aspect of the company. This though, yes I would need to be trained in each and this will give me and the company more wisdom on how to improve the over all of every aspect of the business. Let me be like a Diptera on the wall for the company. The ears and ever watchful eye. Let me use my intuitive gift to sense the future and set intentions with the team to create the best Acme Erectors.

What kind of world do we want to live in one that is open and free to our ever need and desire well we must first show we are able to be open and free to fulfill

Hahahah I was going to start at the bottom again and work my way up. Yet starting at the top and going to the bottom with higher perspective to bring understanding of improving already strong foundation. This is also called many other names such as the path to enlightenment or kundalini the door is kundalini of the business we do such loving caring business that when that company goes out into the world they do business for us we just sit back and watch them come to use like Venus she is a reminder over our building I watch her every night from my house. This is a reminder that what is ment for us always and will be for us in this it will come to us at exactly right divine timing. With out effort

-additional- make this business be like my own professional business pendulum. Let's create a even stronger wider solid foundation/frame or even better stepping stones to all future businesses to build off. BOUNDLESS INFINITE. Because through me(Me is upside down is We) and my intuitive abilities and gifts of awareness to growth and expanding positive authentic businesses/ companies. The business sits in this pendulum which we will help finish to completion. So we can have a swing propetual motion device. This is something that always continues to go with creating its own energy enhancing its self and energy as it creates further. Lets tightly up the energy in and around the business as of for what it is now. Habits are hard to brake but negative is only temporary positive energy is everlasting. Use that positive energy to propell forward and outward into the universe and back to my foundations that we will create. I share my inquiries with all and all go out and make these inquiries happen. Come back to me and I reassessment of them with the best of my abilities hands on overseeing the happening which this process will be as child care I shall support us all encourage us all, carry us all, and create a safe space for the expansion of this company in its own ways which will be supported in the

soild unbreakable energy of unconditional love. This is love for all aspects. In this I shall also grow my own abilities and experiences to help guide the company ever further. Creating a fossiled unconditional loving spiritual influenced company guidance blueprint/manuals.

7-2-2023 737 you actions thoughts and words are my bouncy ball. All goes and come through and back to Me.We.

1033 we expect excellence in all aspect our our lives.

1034 We are excellent in all aspects our lives
