Dear Champion scale and whom it may concern,

I am writing this letter to inform all parties, That I Stefan William Sampo am planing to retire my time at champion scale. As always i want to make sure that my intentions are clear as i do not wish any miss understanding of where i am coming from. I want to speak openly freely and loving. My intentions are with and from my heart with unconditional self Love; which i see and perceive as unconditional love for all that is; for all that is, is me and apart of me. In these intentions I have to highest requests, encouragements and aprpreciations of Love peace and positivity. Any thing other is not of me.

I give my thanks and gratitude for blessing me with many opportunities to grow my life experiences with you all. There is no such thing as to much love thanks or gratitude. No words could discribe how much love I have for each and everyone of you, and the sharing of life experiences each of you has gifted me with uniquely; only as each of you could and ever will. My thanks for sharing in every opportunity and experience of growth and evolving of our beings. Grateful to have been a Loving positive part of all your lives. A smile is the smallest act of kindness we can share with anyone and can have the biggest positive life change in another. I am glad I could open up to share this smile with you.

My plan so far, as i am being gudied. Is to give all a heads up that i am looking to continue on my path in life; with all the wisdom shared though champion scale, to new life opportunities and experiences that will grow my spirital path in life. As my life is one for my soul. In this way of life I must always listen to myself and encourage others to listen to themselves as well. We achive a kind of blissfullness in all our being when we surrender to our higher being or God persay. Intuition. Only you know what is right for you. As you are always on the right path for you.. I intend to leave by Febuary 13 2024 or sooner depending on the universe and what i feel is right for me. I will give two week advance before i do initially say good bye.

Lastly id like to add good bye should always be a positive experience in life. No matter the situation or reason. For good bye is a renewal of energy. An oportuntiy for new beiginings not just for myself but for each and everyone of you. It is a time to release anything no longer for you with thanks and graditude to welcome not only the new opporrtunity but also experiences with open arms. As always I encourage each of you to take this positively as when we are able to say good bye with love and positivity we open up ourselve to grow off of this energy. As well everyone always comes back into your life one way or another; personally I'd rather leave in a loving and positive way so that when we meet again in this lifetime or the next we can welcome eachother with open arms and hearts.

I give my thanks and gratitude again. As well as wish you all many blessings of abuandance, love,positivity, peace,happiness, joy, and succes within all aspect of your lives.

To the Future;

Stefan William Sampo
