Preparation is important because it helps to ensure that you are ready to take on a task or situation, and that you have the necessary resources and knowledge to succeed. Being prepared can also help to reduce stress and anxiety, as you are more confident in your ability to handle the task or situation at hand. Preparing in advance can also save time and increase efficiency, as you are able to start work or take action immediately, rather than wasting time gathering resources or figuring out what to do next. Project- a specific plan or design engaged in usually by a group

-to put or set forth

-to devise in the mind

- to display outward especially to an audience
- to attribute (Ones own ideas, feelings, or character) to other people or objects
- to make oneself heard clearly

I find this next one so funny as when I first read TEAM COLLABORATION, I fumbled over the word collaboration. Which I repeated and said fine; why was there this stumble in words because team and collaboration mean the same exact thing. Working together. So this basically says working together working together. A conundrum sentence... This is why we changed it to TEAM GROWTH as we work together growing. Growing an environment where we grow what it means to work together. BAM

Workplace remove workplace- we will promote this in work place but also within all our employees lives!!! IN ALL ASPECTS

I reply it is. She speaks I think that other side is comfy. To which we agreed to accept and grow our understanding of eachothers perspective or opinion. Which in turn grows each esteem perspective of : one 1 how to communicate with one another to grow understanding. Two 2 an opportunity to grow our own perspective of comfy by trying the others way.
